CASE # 3:19-CV-00628

Notice of Imminent Danger - Disability

TENN. R EVID., Rule 402 Relevant Evidence.

Henry Hodge # 102143, is a death row inmate who has been locked down in solitary confinement for a very long time, and has not had any relief from the atypical and significant ~~Hard~~-time / Hardship in almost three decades.

ON October 07, 2022, He cut himself up because he is Sick of the mind, due to the Hardship He's endured at the hands of TDOC staff, without any relief. See Unexhausted Grievance # 22-0349/00356026, Filed October 13, 2022. The foregoing is true and correct under penalty of perjury under laws of Tennessee. S/S 10/19/22 by Jon Hall.

BEST INTEREST-DEMONSTRATION OF AGREEMENT

That adoption of Policy 503.03 by Lisa Helton as Commissioner of Tn. Dept. of Correction, does not prevent others in their custody and care, from the prolong solitary confinement, and is therefore a meaningless fix in a dangerous ongoing situation, and reminiscent of Declaration of Independence, Clause 5, Grievances:

He has refused to pass laws for the Accommodation of People unless those people would relinquish the right of representation in the legislature, a right inestimable to them, and formidable to Tyrants only.

Respectfully Submitted, Jon Hall 10/19/22.

DESCRIPTION OF PROBLEM: male appendage (Penis) after breaking sprinkler heads smearing feces in his cell and carrying on in a manner that screams out loud and clear you are dealing with an individual that has been held in solitary confinement as a C-level for almost three decades without any relief

REFERENCE: Jon Hall v. Donald Trump / Tony Parker, Case 3:19-cv-00628, at PageID # 25, § 71 (It's a miracle he has not committed suicide); and PageID # 224- 252(Brief of Amici Curiae - Professors and Practitioner's of Psychiatry And Psychology).

The first time RMSI staff put an inmate in the seclusion cell in C-109 he broke the sprinklers in C-109, and Richard Odom cleaned blood splatter off the wall in a rainbow pattern, as I had seen first hand after getting ice from C-Pod. The cells in C-pod were specifically placed in C-Pod as a remedial solution to alleviate problems regarding lack of programs for B & C levels participation with others through the wire mesh cages, not to create a psychological illusion of extreme seclusion, when there was no other inmates housed in C-Pod, the new program center.

The problem with confining inmates all on one unit creates the prolong detention of incompatible inmates that have problems dealing with certain inmates due to prior altercations, in which the population does not have that problem, because incompatible inmates are transferred away from their problems. In the past others with problems were housed at the Maximum Security prison at Brushy Mountain. After thirty years of sensory deprivation seclusions you have deprived that man of his sanity, in which now requires immediate attention and special considerations to regain his sanity. Madrid v Gomez 889 F.Supp. 1146, 1265 n. 209 (N.D. Cal. 1995) \* (Sanity is one of life's necessities). Christy Pike is housed with population inmates.

It is readily apparent that Henry Hodges many years in administrative, punitive and mandatory segregation has caused an atypical and significant hardship with an overtly mentally ill person, in violation of the Americans with Disabilities Act T.C.A. § 41-21-402.

TENNESSEE DEPARTMENT OF CORRECTION  
INMATE GRIEVANCE (continuation sheet)

DESCRIPTION OF PROBLEM: male appendage (Penis) after breaking sprinkler heads smearing feces in his cell and carrying on in a manner that screams out loud and clear you are dealing with an individual that has been held in solitary confinement as a C-level for almost three decades without any relief

REFERENCE: Jon Hall v. Donald Trump / Tony Parker, Case 3:19-cv-00628, at PageID # 25, § 71 (It's a miracle he has not committed suicide); and PageID # 224- 252(Brief of Amici Curiae - Professors and Practitioner's of Psychiatry And Psychology).

The first time RMSI staff put an inmate in the seclusion cell in C-109 he broke the sprinklers in C-109, and Richard Odom cleaned blood splatter off the wall in a rainbow pattern, as I had seen first hand after getting ice from C-Pod. The cells in C-pod were specifically placed in C-Pod as a remedial solution to alleviate problems regarding lack of programs for B & C levels participation with others through the wire mesh cages, not to create a psychological illusion of extreme seclusion, when there was no other inmates housed in C-Pod, the new program center.

The problem with confining inmates all on one unit creates the prolonged detention of incompatible inmates that have problems dealing with certain inmates due to prior altercations, in which the population does not have that problem, because incompatible inmates are transferred away from their problems. In the past others with problems were housed at the Maximum Security prison at Brushy Mountain. After thirty years of sensory deprivation seclusions you have deprived that man of his sanity, in which now requires immediate attention and special considerations to regain his sanity. Madrid v Gomez 889 F.Supp. 1146, 1265 n. 209 (N.D. Cal. 1995) \* (Sanity is one of life's necessities). Christy Pike is housed with population inmates.

It is readily apparent that Henry Hodges many years in administrative, punitive and mandatory segregation has caused an atypical and significant hardship with an overtly mentally ill person, in violation of the Americans with Disabilities Act T.C.A. § 41-21-402.
